ASHLAND PARK STUD FARM.

 appetizing.

The progress in ashes at Ashland Park. Ewe's moments for sows.

ASLAND PARK STUD FARM.

Ashland Park was at Ashland Park. In company with Mr. Charles Coggin, the manager, Mr. W. H. Meek, the farmer, and Mr. A. C. Chamberlain, the manager of the farm, we had the pleasure of witnessing the grand display of thoroughbreds that have been bred at Ashland Park for so many years. The farm is situated on a beautiful tract of land overlooking the Mississippi River. The soil is light and sandy, and the climate is mild and healthy. The buildings are of the most up-to-date type, and the barns are constructed in such a way as to provide ample shelter for the horses during the winter months. The barns are well equipped with the latest mechanical devices, and the horses are given the best possible care and attention.

During our visit, we had the opportunity to observe the horses at play and exercise. The stable yard was filled with the sound of hooves as the horses galloped and trotted around the field. The air was filled with the sweet smell of horse manure and hay, and the sound of the horses' breathing could be heard in the distance. The horses were well groomed and cared for, and their coats were shiny and clean. The wetness of the horses was evident from the way they panted as they trotted around the field.

The horses at Ashland Park were of the finest quality, and we had the opportunity to see a variety of breeds, including Thoroughbreds, Morgans, and Arabians. The horses were trained for both racing and show, and we had the chance to see them in action. The manager of the farm, Mr. Coggin, was very knowledgeable about the horses and was able to answer all of our questions about their care and training.

The highlight of our visit was the opportunity to see the Ashland Park Stud Farm, which is renowned for its breeding of horses. The farm is located in the heart of the horse country, and the horses are given the best possible care and attention. The farm has a long history of breeding championship-quality horses, and the manager, Mr. Coggin, was very proud of the farm's accomplishments. We had the chance to see the stud farm in action, and we were impressed by the quality of the horses we saw.

In conclusion, our visit to Ashland Park was an enjoyable experience, and we were very impressed with the quality of the horses we saw. The farm is a great example of what can be accomplished with dedication and hard work, and we highly recommend it to anyone interested in horse breeding and racing.

THE MICHIGAN CIRCUIT.

JACKSON, MICH., MARCH 28, 1889.

In Michigan, as in other parts of the country, horse racing is a popular pastime. The Michigan Eclipse Trotting Club, which was formed in 1885, is one of the largest and most successful in the state. The club is located in Jackson, Michigan, and holds races on a 1-mile track. The races are held on a regular basis, and the club attracts a large number of spectators.

The Michigan Circuit is made up of six tracks, each with its own set of rules and regulations. The tracks are located in various parts of the state, including Detroit, Grand Rapids, Battle Creek, Kalamazoo, Ann Arbor, and Jackson. Each track holds races on a regular basis, and the club attracts a large number of spectators.

In addition to the races, the Michigan Circuit also hosts a number of social events, including picnics, dances, and parades. The club is active throughout the year, and members are encouraged to participate in a variety of activities.

Despite its relatively small size, the Michigan Circuit is known for its high-quality racing. The club has produced many championship-quality horses, and its members are dedicated to promoting the sport of horse racing.
